

ReoGrid is a family of high-performance spreadsheet components for .NET and the web. This document reflects the licensing model effective August 19, 2026 (ReoGrid One).

ReoGrid One — .NET Spreadsheet Component

For WinForms, WPF and Avalonia. One license covers every platform and both V4 and V5.

- Perpetual license — buy once, runs forever, no kill switch
- First year of updates & technical support included
- Optional annual renewal from year two (nothing stops if you lapse)
- Version-independent — covers V4 and V5, no re-issued keys
- Royalty-free redistribution — no runtime fees

Edition	Price (USD)	Annual renewal (optional)	Dev devices
ReoGrid One Professional	\$2,500	\$750/yr	Up to 3
ReoGrid One Enterprise	\$3,900	\$975/yr	Unlimited (site license)

* Avalonia is supported in V5 and later. The Community edition (V3, MIT license) is free.

ReoGrid Web — JavaScript / TypeScript Spreadsheet

Canvas-based spreadsheet for the browser, with React / Vue wrappers included.

Edition	Price (USD)	Annual renewal (optional)	Registered domains
ReoGrid Web Lite	Free	—	N/A (no key; 100 rows × 26 cols)
ReoGrid Web Pro	\$798	\$199/yr	Up to 3
ReoGrid Web Enterprise	\$1,466	\$366/yr	Up to 30 (unlimited option)

* Domains are counted per hostname — localhost and IP addresses each use one slot, with no exclusions. The Web Enterprise offline license file is available on request.

ReoGrid V5 — released August 19, 2026

- Fully virtualized core — ~16–23 bytes per cell measured (V4: ~150–200 bytes)
- New Avalonia platform (Windows / macOS / Linux) plus a UI-independent headless core
- 122 formula functions, dependency-based recalculation, Excel format codes
- Direct dependency-free PDF export (CJK font embedded), streaming XLSX
- Some V4 features (charts, comments, ...) are not in V5.0 — keep using V4 on the same license

Support & Services

Technical support	Included with every paid license for the first year (dedicated ticket portal). Continue via the optional annual renewal.
Custom development / Professional Services	OEM integration, feature extensions and contract development — quoted per requirements.
